

Space – The Study of the Universe **SAMPLE**

Task Card Review Game

Instructions

- Students get into groups of 2
- Place task cards around the room randomly (i.e. # 1 shouldn't necessarily be near #2)
- Assign a task card for each group to start on. Once they have completed that card, they move onto the next in sequence.
- Students disperse, find their questions and answer them on a separate piece of paper
- The challenge of the game is to have your students match their answer with the corresponding word on the overhead.
- On an overhead projector, have all the answers and their corresponding words listed

(See Task Card Review Game Word Chart)

- o Note –posting additional copies of the Word Chart around the room can decrease congestion around the projector and make it easier to see.

Example - Task Card Review Game Word Chart

Answer	Word	Answer	Word
3	Hello	45	World
19	here	14	I'm

- Once they have completed each task card and put their words in the correct order (Word from Question 1, Word from Question 2, etc.) they will create a quote

i.e. the answer to #1 is 3 and its word is Hello, #2 is 45 = World, #3 is 14 = I'm, #4 is 19 = here

Your students would put the words together and get “Hello World I'm here”

- The group then brings their quote to the teacher who checks for correctness

Simple Task Card Review

- For typical review, you can simply distribute the Task Cards to your class for individual, group or whole class review
- Task cards can also be easily and effectively incorporated into math workshops
- The task cards can be projected on the board for whole class review
- The task cards work well as cue cards, tests review, etc.
- A student worksheet as well as teacher answer key are provided

Task Card Review Game Word Chart

All Task Card Answers are connected with a certain word (clue). Once the group solves a Task Card, they will use the answer to identify the associated word (clue) to gain a part of the puzzle (sentence). Once all the clues are discovered, your students will put them together to solve the puzzle (complete the quote). Below is a portion of the Answer-Clue Chart. Note: There are incorrect as well as correct answers listed.
